Amendments to the Articles of Association are subject to the approval of the shareholders at the Annual General Meeting. The resolution to amend the Articles of Association at the Annual General Meeting requires, in addition to a simple majority of votes, a majority that must comprise at least three-quarters of the subscribed capital represented in the vote; Section 119 (1) no. 6, Section 133 (1), and Section 179 et seq. of the German Stock Corporation Act (AktG) apply. In accordance with Section 11 (9) of the Articles of Association, the Supervisory Board is authorized to pass amendments to the Articles of Association that only relate to their wording. Furthermore, the Supervisory Board is authorized to adjust Section 4 of the Articles of Association after the complete or partial execution of a subscribed capital increase in accordance with the respective claim to the authorized capital and after the authorization expires. It is also authorized to amend the version of Section 4 (1) and (3) of the Articles of Association in accordance with the respective issuance of new no-par-value bearer shares within the context of the 2022 conditional capital and to make all other related amendments to the Articles of Association that only relate to the wording. The same applies if the authorization to issue bonds with warrants or convertible bonds is not exercised after the authorization period expires or if the conditional capital is not utilized after the deadlines for exercising option or conversion rights or for fulfilling conversion or option obligations have expired.

Power of the Executive Board to issue shares

In accordance with Section 4 (2) of the Articles of Association, the Executive Board is authorized, with the approval of the Supervisory Board, to increase the company's subscribed capital in the period until February 16, 2027 by issuing up to 8,991,344 new no-par-value shares in exchange for a cash contribution and/or a contribution in kind, once or in several installments, by up to €23,017,840.64. The shareholders shall always be granted a subscription right. The new shares can also be acquired by one or more credit institutions with the obligation of offering them to shareholders for subscription. However, the Executive Board is authorized, subject to the approval of the Supervisory Board, to exclude shareholder subscription rights once or on several occasions. Such exclusion is only possible

- a) inasmuch as it is necessary to exclude subscription rights for possible fractional amounts.
- b) up to an arithmetical face value totaling €11,508,920.32 if the new shares are issued for a contribution in kind.
- c) for capital increases against cash contributions up to an arithmetical nominal value totaling €11,508,920.32 or, if this amount is lower, by a total of 10 % of the subscribed capital (the "maximum amount") existing when this power was exercised for the first time (in each case taking into account the possible use of other authorizations to exclude the subscription right in accordance with or in the corresponding application of Section 186 (3) sentence 4 of the German Stock Corporation Act), if the issuing price for the new shares is not significantly lower than the price of company shares in the same category on the stock exchange at the time when the issuing price is finally fixed.
- d) up to an arithmetical face value totaling €11,508,920.32, inasmuch as it is necessary to grant holders or creditors of bonds issued by the company or companies dependent on or directly or indirectly majority-held by the company a subscription right for new shares to the same extent as they would be entitled after exercising the option or conversion right and/or fulfilling option or conversion obligations as a shareholder.

The total shares issued without a subscription right against a cash contribution and/or a contribution in kind in the case of capital increases due to the authorizations to exclude the subscription right pursuant to items a) to d) may not exceed 10 % of the subscribed capital, neither at the time the authorization goes into

effect nor — if this value is lower — at the time it is exercised. Shares of the company (i) that are issued during the period of this authorization excluding the shareholder subscription right from other authorizations and (ii) that are or will be issued from conditional capital to service bonds should be counted towards the aforementioned 10 % limit, provided that the bonds were issued during the period of this authorization excluding the shareholder subscription rights. The upper limit reduced pursuant to the previous sentences of this paragraph will be increased again when a new authorization to exclude shareholder subscription rights passed by the Annual General Meeting following the reduction goes into effect, provided that the new authorization is sufficient, but up to 10 % of the subscribed capital.

For details, refer to the text of the authorization laid out in Section 4 (2) of the Articles of Association.

Power of the Executive Board to repurchase shares

With a resolution of the Annual General Meeting on February 16, 2023, the company was authorized until February 15, 2026 to repurchase treasury shares up to a total of 10 % of the current subscribed capital. Together with other treasury shares held by the company or attributable to it in accordance with Section 71a et seq. of the German Stock Corporation Act (AktG), the shares acquired by the company based on this authorization shall at no time exceed 10 % of the company's current subscribed capital. The acquisition of shares for the purpose of trading with treasury shares is excluded. The Executive Board is empowered to use shares in the company that are purchased on account of this power for all legally permitted purposes, and in particular for the following purposes:

- a) Own shares that have been acquired can also be sold in a way other than a sale via the stock exchange or by means of an offer to all of the shareholders, if the shares are sold in return for a cash payment at a price that is not materially lower than the stock market price of the company's shares with the same terms at the time of the sale. The definitive trading price for the purpose of the arrangement previously mentioned shall be the average closing price of the company's shares with the same terms in Xetra trading (or a comparable successor system) over the last five trading days of the Frankfurt Stock Exchange before the commitment to sell the shares was entered into. The shareholders' subscription right is excluded. This authorization shall, however, only apply on the condition that the shares sold excluding the subscription right may not, in accordance with Section 186 (3) sentence 4 of the German Stock Corporation Act (AktG), exceed 10 % of the subscribed capital, either at the time this becomes effective or at the time of exercise of this authorization (the "upper limit"). Shares that

are issued during the term of this authorization from authorized capital pursuant to Section 186 (3) sentence 4 of the German Stock Corporation Act (AktG), excluding subscription rights, are to be credited towards this upper limit. Furthermore, this upper limit shall take into account those shares that are issued or are to be issued in order to service convertible bonds and/or bonds with warrants (or profit participation rights, or participating bonds with a conversion right, option right, or conversion obligation, or the company's right to offer), which were issued during the term of this authorization due to an authorization to issue convertible bonds and/or bonds with warrants (or profit participation rights, or participating bonds with a conversion right, option right, or conversion obligation, or the company's right to offer) in commensurate application of Section 186 (3) sentence 4 of the German Stock Corporation Act (AktG), excluding subscription rights. An inclusion that has been carried out is canceled if authorizations to issue new shares from authorized capital in accordance with Section 186 (3) sentence 4 of the German Stock Corporation Act (AktG) or to issue convertible bonds and/or bonds with warrants (or profit participation rights, or participating bonds with a conversion right, option right, or conversion obligation, or the company's right to offer) in commensurate application of Section 186 (3) sentence 4 of the German Stock Corporation Act (AktG) are granted again at the Annual General Meeting after exercising such authorizations that have led to inclusion.

- b) Treasury shares that have been acquired can also be sold in a way other than a sale via the stock exchange or by means of an offer to all of the shareholders. This is provided that such sale is carried out in return for a contribution in kind by a third party, especially in conjunction with the acquisition of business entities, parts of business entities, or participating interests in business entities by the company itself or by a business entity dependent on it or majority-owned by it, and in conjunction with business combinations, or to fulfill conversion rights or obligations of holders and/or creditors relating to conversion or option rights issued by the company or Group entities of the company (or profit participation rights, or participating bonds with a conversion right, option right, or conversion obligation, or the company's right to offer), especially – but not exclusively – due to the authorization to issue convertible bonds and/or bonds with warrants, profit participation rights, and/or participating bonds (or combinations of these instruments) decided under item 6 of the agenda for the Annual General Meeting on February 17, 2022. The shareholders' subscription right is excluded in each case.
- c) Treasury shares that have been acquired can be withdrawn entirely or in part without a further resolution at the Annual General Meeting. They can also be withdrawn in a simplified procedure without a reduction in capital by adjusting the proportionate notional share of the remaining no-par-

value shares in the subscribed capital of the company. The withdrawal can be limited to a portion of the acquired shares. If the withdrawal takes place using the simplified procedure, the Executive Board is authorized to adjust the number of no-par-value shares in the Articles of Association.

The treasury shares collectively sold under the authorization mentioned previously, pursuant to items a) and b) and excluding the subscription right, may not exceed 10 % of the share capital, neither at the time the authorization becomes effective nor at the time it is exercised. The 10 % limit must include (i) new shares that are issued, excluding the subscription right, during the term of this authorization up to the sale of the treasury shares from other authorizations, without subscription rights, and (ii) those shares that are issued in order to service convertible bonds and/or bonds with warrants (or profit participation rights, or participating bonds with a conversion right, option right, or conversion obligation, or the company's right to offer), if the bonds were issued during the term of this authorization up to the sale of the treasury shares, excluding shareholder subscription rights. If and to the extent that the shareholders at the Annual General Meeting reissue the relevant authorization to exclude subscription rights after the authorization leading to inclusion in the 10 % limit previously mentioned has been exercised, the inclusion that has already been carried out is eliminated.

The complete text of the resolution dated February 16, 2023, which can be referred to for additional details, was included under agenda item 10 in the invitation to the Annual General Meeting 2023 published in the German Federal Gazette on January 5, 2023.

Power of the Executive Board to issue convertible bonds and shares from conditional capital

With the resolution passed by the shareholders at the Annual General Meeting on February 17, 2022, the Executive Board was authorized, subject to the approval of the Supervisory Board, to issue bearer or registered convertible bonds and/or bonds with warrants, profit participation rights, and/or participating bonds (or combinations of these instruments) — referred to collectively as “bonds” — until February 16, 2027, once or several times, with or without a maturity limit, in the total nominal amount of up to €500,000,000.00, and to grant conversion or option rights to the holders or creditors of such bonds for no-par-value bearer shares in the company representing a proportionate amount of the subscribed capital totaling €11,508,920.32 as further specified in the terms and conditions of the bonds.

The shareholders are fundamentally entitled to a subscription right for the bonds. The bonds can also be acquired by one or more credit institutions or one or more companies working in accordance with Section 53 (1) sentence 1 or Section 53b (1) sentence 1 or (7) of the German Banking Act with the obligation of directly offering them to shareholders for subscription within the meaning of Section 186 (5) of the German Stock Corporation Act (AktG) (referred to as a direct subscription right). However, the Executive Board is authorized to exclude shareholder subscription rights to the bonds with Supervisory Board approval in the following cases (outlined in condensed form):

- 1) If bonds with conversion or option rights and/or conversion or option obligations are to be issued in return for a cash payment, the Executive Board is authorized, subject to the approval of the Supervisory Board, to issue the bonds, in commensurate application of Section 186 (3) sentence 4 of the German Stock Corporation Act (AktG), with the exclusion of subscription rights, provided the issue price is not significantly lower than the theoretical market value determined using accepted finance mathematical methods for bonds.
- 2) Moreover, the Executive Board is authorized, subject to the approval of the Supervisory Board, to exclude the shareholders' subscription rights if the bonds are issued against contributions in kind or non-cash benefits, especially in the course of company mergers or for the acquisition (even indirect) of companies, plants, business units, stakes, or other assets or claims to the acquisition of assets, including receivables against the company or its affiliates, provided the value of the asset in kind is reasonably proportionate to the value of the bonds.
- 3) Furthermore, the Executive Board will be authorized, subject to the approval of the Supervisory Board, to exclude the subscription right of the shareholders for bonds for fractional amounts and also to exclude the subscription right, subject to the approval of the Supervisory Board, inasmuch as it is necessary in order to be able to grant the holders or creditors of conversion and/or option rights on shares in the company, or corresponding conversion/option obligations, or shares offered by the company to compensate for dilutions, subscription rights to the extent to which they would be entitled to the subscription rights after exercising these conversion and/or option rights or fulfilling these conversion/option obligations.

All of the bonds to be issued under the authorizations outlined above and excluding subscription rights are limited to the number of bonds with an option or conversion right or an option or conversion obligation on

shares with a proportional amount of the share capital, which may not exceed a total of 10 % of the subscribed capital, neither at the time the existing authorization goes into effect nor — if this value is lower — at the time the existing authorization is exercised. Shares of the company (i) that are issued during the period of this authorization excluding the shareholder subscription right from other authorizations and (ii) that are or will be issued to service bonds with conversion or option rights and/or conversion or option obligations should be counted towards the aforementioned 10 % limit, provided that these bonds were issued during the period of this authorization excluding the subscription rights. The reduced upper limit will be increased again when a new authorization to exclude shareholder subscription rights passed by the Annual General Meeting following the reduction goes into effect, provided that the new authorization is sufficient, but up to 10 % of the subscribed capital.

The complete text of the authorization of the Executive Board to issue bonds, which can be referred to for additional details, corresponds to the resolution proposed by the Executive Board and Supervisory Board regarding agenda item 6 of the ordinary Annual General Meeting on February 17, 2022, which was published in the German Federal Gazette on December 20, 2021.

Conditional capital

The subscribed capital shall be conditionally increased by up to €11,508,920.32 through the issuing of up to 4,495,672 new bearer shares without a nominal amount (no-par-value shares), each with notional interest in the subscribed capital of €2.56 (2022 conditional capital). The conditional capital increase will only be carried out to the extent that the holders or creditors of conversion and/or option rights from convertible bonds, bonds with warrants, profit participation rights, and/or participating bonds (or combinations of these instruments) that are issued or guaranteed by the company or by dependent companies or companies directly or indirectly majority-held by the company based on the authorization resolution by the Annual General Meeting on February 17, 2022 utilize their conversion or option rights and/or fulfill conversion or option obligations from such bonds or, to the extent that the company grants company shares instead of paying the cash amount due, and to the extent that conversion or option rights and/or conversion or option obligations are not serviced by own shares, shares from authorized capital, or other payments. The new no-

par-value bearer shares shall be entitled to participate in the profits from the beginning of the fiscal year in which they come into existence through the exercise of conversion or option rights, through the fulfillment of conversion or option obligations, or through their granting instead of the payment of the cash amount due, and for all subsequent fiscal years. To the extent permitted by law, the Executive Board can, subject to the approval of the Supervisory Board, determine that the new shares are entitled to participate in profits from the beginning of the fiscal year for which, at the time of exercise of conversion or option rights, the fulfillment of conversion or option obligations, or the granting of shares in lieu of the due cash amount, no resolution has yet been adopted about the use of unappropriated earnings at the Annual General Meeting.

The complete text of the resolution dated February 17, 2022, which can be referred to for additional details, was included under agenda item 6 in the invitation to the Annual General Meeting 2022 published in the German Federal Gazette on December 20, 2021.

The same applies to a €200 million line of credit for Aurubis AG (“Facility Agreement”) as well as additional development loans and bilateral loans totaling €332 million. Within the scope of various bonded loans (Schuldscheindarlehen) totaling €66 million, every lender has an extraordinary right of cancellation if control over the borrower changes.
